Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I Keep the tracphone for emergency only I dont use it for any other reason at times I donot use it more than once a month. The price of the tracphone card is more than I can keep up on my limited SS check per month I feel that a higher charge per month would be more than I would want to pay. Please consider those people like me that dont have the money to keep a permanent cell phone. Sincerely Elizabeth A. Hardesty

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
